

Mr. Fessler,

You are requesting compliance information on the below Galt item. As you may know, Elmer's has recently taken over the US distribution of Galt products from the previous distributor, Galt America. James Galt, Ltd. UK is a wholly owned subsidiary of Elmer's Products, Inc.

The below product has passed third party testing and has a EN71 certificate. Per the recent CPSIA ruling by the CPSC, testing and certification for a product can be affirmed through a reasonable testing program. As this product has the EN71 certificate, Elmer's can affirm that it is compliant with the CPSIA standards. However, given its date of manufacture (prior to November 12, 2008) no CPSIA Certificate of Compliance/General Conformity Certificate is required nor is it available for this product.

Also, for your information, Elmer's is no longer planning to distribute this Galt TEE PEE in the US.

Let me know if you have questions.

Regards,

Richard C. "Max" Maksimoski

Vice-President, R&D

Elmer's Products, Inc.
