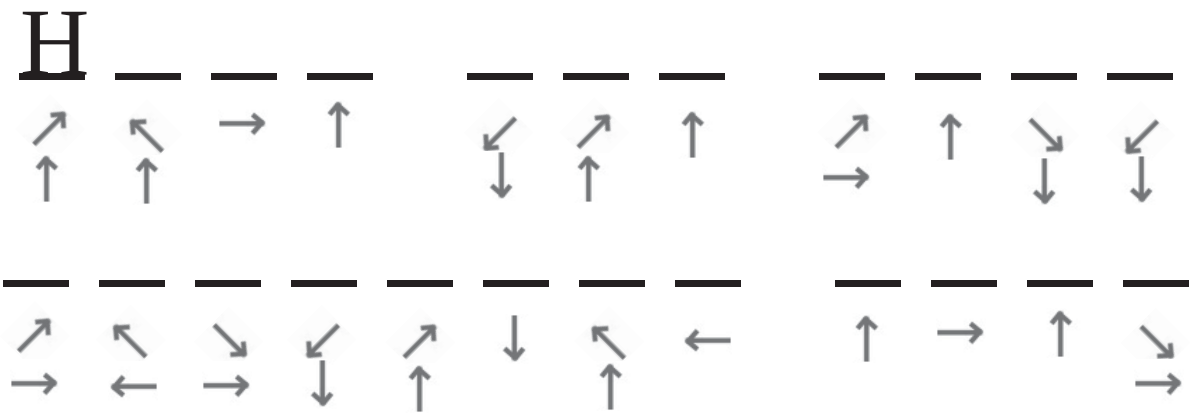
# BIRTHDAY SECRET MESSAGE PUZZLE

*by Wes Fessler*

**Instructions:** Use the letters around the happy birthday boxes to help you decode a birthday message. Use one letter for each space. Find the letters by using the arrows under the blank spaces. If the letter is around the center box, there will be only one arrow pointing the direction of the letter. If the letter is on one of the outer boxes, there will be two arrows (the first arrow will tell which box the letter is on, and the second arrow to point the direction of the letter). The first letter is filled in for you as an example. Start from the middle box for each clue.



*Start from the middle box for each clue.*
